

Haskell CISD

District of Innovation

Haskell CISD has created a District of Innovation Plan since the passage of HS 1842 allows local districts to have some of the same flexibility that charter schools have been allowed. This plan will allow Haskell CISD to make local decisions that are in the best interest of our students.

This plan will be in effect for the summer and fall of 2022 school year. The district posted the plan on our Haskell CISD website on February 15, 2022.

District of Innovation Committee

Haskell CISD District of Innovation

Calendar

- January 11, 2022. Administrators and Counselors met to discuss the renewal of the DOI for the next five years. We found out we were too late for renewal so we decided to present a new resolution for a new district of innovation plan for consideration by the District.
- February 14, 2022. District of Innovation meeting with all District Site Base Members to discuss the plan. By unanimous vote, the committee elected to continue the DOI with the addition of one. The plan was sent to the school board for consideration.
- February 24th. A board resolution was passed for the development of the District of Innovation after the board held a public hearing concerning the development of the District of Innovation Plan.
- February 15, 2022. A copy of the proposed District of Innovation was posted on the HCISD website.
- March 8, 2022. The district of Innovation committee met and reviewed the Innovation Plan so it could be edited if needed.
- April 21, 2022. The District of Innovation Plan was presented to the Haskell CISD board for approval. It passed with a vote of 7-0.
- April 22, 2022. The District of Innovation Plan was sent to the TEA commissioner as required.
