Unmodified Report on Financial Statements Issued in Accordance with *Government Auditing Standards* and a Single Audit Accompanied by Required Supplementary Information, Supplementary Information, and Other Information

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Haskell Consolidated Independent School District Haskell, Texas 79521

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Haskell Consolidated Independent School District, as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the Haskell Consolidated Independent School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Haskell Consolidated Independent School District, as of August 31, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Haskell Consolidated Independent School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Haskell Consolidated Independent School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

James E. Rodgers and Company, P.C.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
 of the Haskell Consolidated Independent School District's internal control. Accordingly, no such opinion
 is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Haskell Consolidated Independent School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, and GASB 68 and 75 schedules for pension and OPEB liabilities and contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

James E. Rodgers and Company, P.C.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Haskell Consolidated Independent School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 18, 2022, on our consideration of the Haskell Consolidated Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Haskell Consolidated Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Haskell Consolidated Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

James E. Rodgers and Company, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the administration of **Haskell Consolidated Independent School District**, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2022. Please read it in conjunction with the independent auditor's report and the District's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

Highlights of Current Fiscal Year Finances

District's Total Net Position at the End of the Year	\$ 5,724,335
Total District Revenues for the Current Fiscal Year	\$ 11,143,454
Total District Expenses for the Current Fiscal Year	\$ 10,508,657
Fund Balance in the General Fund at the End of Year	\$ 3,714,290

Changes in the District's Finances from the Previous Fiscal Year

		Increase (Dec	rease)
		\$	%
Change in Net Position:			
Change in the District's Total Net Position	\$	631,202	12.39%
Revenue Changes:			
Change in the District's Total Revenues	\$	38,267	0.34%
Change in the District's Property Tax Revenues	\$	(199,643)	-4.14%
Change in the District's State Aid Formula Grants	. \$	285,090	7.79%
Change in Operating Grants and Contributions	\$	(1,280,713)	-43.77%
Expense Changes:			
Change in the District's Total Expenses	\$	(564,709)	-5.10%
Other Information:			
Change in the District's General Fund Balance	\$	244,663	7.05%
Excess (Deficit) of Actual Revenue over Budgeted Revenue	\$	427,246	-0.13%

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district. The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins with the Statement of Net Position (Exhibit A-1). Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's Net Position and changes in them. The District's Net Position (the difference between assets, deferred outflows, liabilities, and deferred inflows) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's Net Position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we combine the District into one kind of activity (all governmental activities).

Governmental activities—All of the District's basic services are reported here, including instruction, counseling, extracurricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin with the Governmental Funds Balance Sheet (Exhibit C-1) and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the "Elementary and Secondary Education Act (ESEA) Title I, Part A – Improving Basic Programs" act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds (governmental and proprietary) use different accounting approaches.

Governmental funds—Most of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation schedule following each of the fund financial statements.

Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds which the District does not have at present) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds in Exhibits D-1, D-2, and D-3) report activities that provide supplies and services for the District's other programs and activities—such as the District's self-insurance programs.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

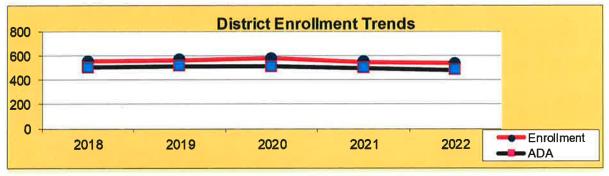

The District is the trustee, or fiduciary, for money raised by student activities and alumni scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position (Exhibit E-1). We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

State funding in Texas is based upon the District's average daily attendance, thus the District's revenue is highly dependent on enrollment trends. The District receives additional weighted funding for students enrolled in career and technology coursework, gifted and talented, special, bilingual, and compensatory education programs. The demographics of the District and the types of coursework students pursue are continuing to evolve in the District. The following chart details the enrollment trends of the District.

ENROLLMENT TRENDS

Ye	ar	Enrollr	nent	ADA	_
20	18	552	2	504.3	
20	19	566	6	514.9

Other Financing Uses		(15,630)				(349,840)			100		(365,470)			
Net Change in Fund Balance	\$	244,663	\$	15,097	\$	(24,311)	\$			\$	235,449			
Beginning Fund Balance		3,469,627		60,578		112,811					3,643,016			
Ending Fund Balance														
All Governmental Funds	\$	3,714,290	\$	75,675	\$	88,500	\$		-	\$	3,878,465			

The District modified its budget several times during the year resulting in a net increase in budgeted expenditures between the original and final budget in the District's General Fund. The significant amendments made during the current year are shown in Exhibit G-1.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the current year, the District had invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This year's major additions and the net change in total capital assets are as follows:

2019 Micro Bird Bus	\$ 39,850
Copy Machines RTU Leases	265,723
Postage Meter RTU Lease	2,250
	-
TOTAL	\$ 307,823
Total Additions	\$ 307,823
Total Deletions	(83,460)
Net Change	\$ 391,283

The District's next fiscal year capital budget includes no significant capital expenditures.

<u>Debt</u>
The District's long-term debt at the end of the current year is as follows:

	Interest Rate on Issue	Amounts Original Issue	Interest Current Year	Outs tanding 8/31/2022	To a	Next Year's tal Principal nd Interest equirement
Right to Use Lease Asset Liabilities 2018 Tax School Building Bonds	1.37%-14.839 1.42%-5.0%	\$ 422,919 \$ 21,060,000	\$ 5,930 729,975	\$ 349,897 17,680,000	\$	90,778 1,544,000
Totals			\$ 735,905	\$ 18,029,897	\$	1,634,778

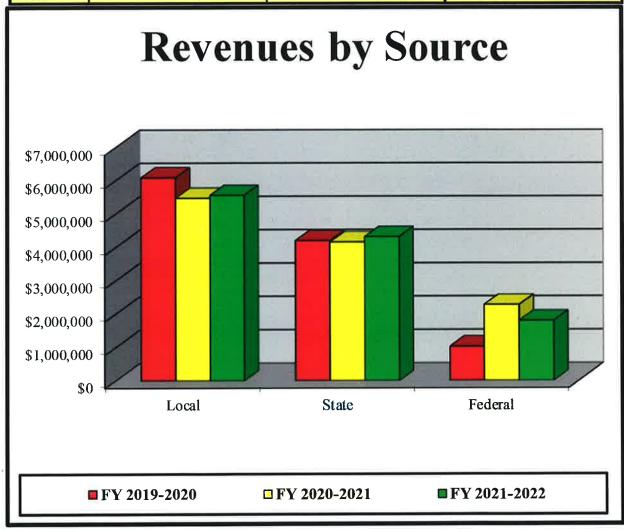

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered many factors when setting the next fiscal year budget and tax rates. Expected student enrollment was implicit in the expected revenue and expenditures when adopting the budget for next year. A summary of the subsequent fiscal year budget for funds legally required to be budgeted is as follows:

Fiscal Ye	ear 2	2022 - 202	23	Adopted E	Budget		
				Child	Debt		
		General		Nutrition	Service		
		Fund		Fund	Fund		TOTALS
Revenues	\$	7,737,319	\$	371,377	\$ 1,819,53	33 \$	9,928,229

HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2022

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 3,878,465
1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase (decrease) net position.	31,932
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$34,509,550 and the accumulated depreciation was \$7,325,668. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net position.	8,059,707
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase (decrease) net position.	1,114,217
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount \$840,286, a deferred resource inflow in the amount of \$1,428,650, and a net pension liability in the amount of \$1,201,138. This resulted in a decrease in net position.	(1,789,502)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$758,650, a deferred resource inflow in the amount of \$2,485,934, and a net OPEB liability in the amount of \$3,026,598. This resulted in a decrease in net position.	(4,753,882)
6 The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(1,014,690)
7 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unearned revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.	198,088
19 Net Position of Governmental Activities	\$ 5,724,335
	 ,,

HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT EXHIBIT C-4 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2022

Total Net Change in Fund Balances - Governmental Funds	\$	235,449
The District uses internal service funds to charge the costs of certain activities, such as self-insurance to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to decrease net position	•	(126)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the current year capital outlays and debt principal payments is to increase net position.		1,114,217
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.		(1,014,690)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unearned revenue as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.		111,725
GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$165,265. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$201,278. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense increased the change in net position by \$65,592. The net result is a increase in the change in net position.		29,579
GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$51,452. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling (\$61,296). Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net OPEB expense increased the change in net position by \$168,487. The net result is an increase in the change in net position.		158,643
Change in Net Position of Governmental Activities	Φ.	(2.4.505

HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Haskell Consolidated Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District also complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity" and amended by GASB Statement No. 61. There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the **Haskell Consolidated Independent School District** non-fiduciary activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District's functions. Taxes are always general revenues. Inter-fund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All inter-fund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Inter-fund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as Inter-fund transfers. Inter-fund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental and enterprise funds major and report their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year-end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of <u>economic</u> resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

General Fund – The general fund is the District's primary operating fund. This fund accounts for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund – The District did maintain major special revenue governmental funds during the current year for ESEA Title I, Part A Grant.

Capital Projects Fund - The District did not maintain a major capital project governmental fund during the current year.

Debt Service Fund - The District did maintain major debt service governmental funds during the current year.

Other Governmental Fund - The District did not maintain other major governmental funds during the current year.

The District reports the following major enterprise fund(s):

The District does not maintain major enterprise funds at present.

Additionally, the District reports the following fund type(s):

Governmental Funds:

Special Revenue Funds – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Debt Service Funds – The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Capital Projects Funds – Proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund when applicable.

Proprietary Funds:

Internal Service Funds – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis (such as workers' compensation) are accounted for in an internal service fund.

Fiduciary Funds:

Private Purpose Trust Funds – The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. When applicable, the District maintains a private purpose trust fund to provide scholarships for students that have graduated from the District.

Custodial Funds – The District accounts for resources held for others in a custodial capacity in custodial funds including funds used to account for student activities.

Inter-fund balances and transfers:

The balances due to the internal service funds from the general fund resulted from obligations made to maintain capital for the operation of each internal service fund for such activities as self-insurance; the balance is not scheduled to be collected in the subsequent year.

All remaining balances resulted from the time lag between the dates that (1) inter-fund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

During the current year ended August 31, the District did not make a one-time transfer of funds from the general fund to the debt service fund to subsidize, in part, the District's obligation of interest and sinking fund requirements.

E. OTHER ACCOUNTING POLICIES

- 1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have maturity of three months or less when purchased.
- 2. The District reports inventories of supplies using the first-in, first-out inventory cost method, if material. The supplies include consumable maintenance, instructional, office, athletic, and transportation items. Under the purchase method, supplies are recorded as expenditures when they are purchased. Inventories of food commodities are recorded at market values supplied by the Department of Agriculture. Although commodities are received at no cost, their fair market value is supplied by the Department of Agriculture and recorded as revenue and expenditures when received. Material inventories (if any) including food commodities are recorded as an asset and a corresponding amount of expenditures are reduced at year-end.
- 3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

- 4. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.
- 5. Capital assets, which include land, buildings, furniture and equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

ASSETS	YEARS
Buildings	40
Buildings and Improvements	40
Infrastructure	40
Vehicles	10
Office Equipment	10
Computer Equipment	10

- 6. Since Internal Service Funds in the District support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
- 7. Restricted assets, if applicable, of the District are limited to cash and certificates of deposit which have been gifted to the District with the stipulation that only the earnings are available for current and future scholarship recipients.
- 8. The Districts that participate in self-funded workers' compensation programs execute inter-local agreements that define the responsibilities of the parties. The program, if applicable, provides statutory workers' compensation benefits to its members and their injured employees.

9. Net Position and Fund Balances:

Government-wide and Proprietary Fund Net Position:

Government-wide and proprietary fund net positions are divided into three components:

- Net investment in capital assets—consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.
- •Restricted net position—consist of assets that are restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted—all other net position is reported in this category.

Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

- Non-spendable—Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- Restricted—Amounts that can be spent only for specific purposes because of the District's state or federal laws, or externally imposed conditions by grantors or creditors.
- Committed—Amounts that can be used only for specific purposes determined by a formal action by Board of Trustees' ordinance.
- Assigned—Amounts that are designated by the Superintendent for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by the Board of Trustees.
- Unassigned—All amounts not included in other spendable classifications.

10. Use of Restricted Resources:

When an expenditure/expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expenditure/expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

- 11. The District has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.
- 12. Investment income reported in one fund has not been assigned directly to another fund by the District.
- 13. The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide database for policy development and funding plans.

14. Deferred Outflows of Resources:

The District reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. The deferred outflow of resources reported in this year's financial statements arise from GASB 68 Pension and GASB 75 OPEB deferrals. No deferred outflows of resources affect the governmental funds financial statements in the current year.

15. Deferred Inflows of Resources:

The District's governmental funds report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net assets that applies to a future period(s). The District will not recognize the related revenues until a future event occurs. The District has only one type of item which occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, deferred property taxes and grants are reported in the governmental funds balance sheet. The District did have deferred inflows of resources to report in its government-wide or proprietary fund financial statements for the current year that arose from GASB 68 Pension and GASB 75 OPEB revenue deferrals.

16. Pensions:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

17. TRS-Care Plan:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resource measurement focus and full accrual basis of accounting. This includes for purposes of measuring the new OPEB liability, deferred outflows of resources and deferred inflows or resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

Capital Assets at the Beginning of the Year	Historical Cost	ccumulated epreciation	Net Value at Beginning of Year	Ch	ange in Net Position
Land	\$ 432,811	\$ 940	\$ 432,811		
Buildings and Improvements	30,700,569	(4,874,700)	25,825,869		
Furniture and Equipment	3,376,170	(2,450,968)	925,202		
Long-Term Right to Use Lease Assets	-	: - >	:=:		
Construction in Progress		2	9		
Change in Net Position				\$	27,183,882
ong-term Liabilities at the Beginning of the Year		*!	Payable at Beginning of Year		
Bonds Payable			\$ 18,128,315		
Add Unamortized Bond Premium / Discon	unt		963,424		
Notes and Financed Purchase Obligations					
Payable					
Long-Term Right to Use Lease Asset Lia					
Accrued Interest - Bonds, Notes, and All					
Deferred Inflows of Resources					
Change in Net Position					19,124,175
et Adjustment to Net Position				\$	8,059,707

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position shown in Exhibit C-2 and Exhibit C-4. The details of this adjustment are as follows:

	A	mount	To	ljustments Changes in Net Position	ljustments to Net Position
Current Year Capital Outlay					
Land	\$	s=			
Buildings & Improvements		-			
Furniture & Equipment		39,850			
Construction in Progress					
Long-Term Right to Use Lease Assets		267,973			
Total Capital Outlay		307,823		307,823	307,823
Debt Principal Payments			2.2		
Bond Principal		770,000			
Note Principal Payments		1920			
Financed Purchase Obligation Payments					
Long-Term Right to Use Lease Payments		36,394			
Other Adjustments		S = 1			
Total Principal Payments		806,394	2. 	806,394	806,394
Total Adjustment to Net Position			\$	1,114,217	\$ 1,114,217

Another element of the reconciliation on Exhibits C-2 and C-4 are described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details of this adjustment are as follows:

			_	us tments Change in	Ad	ljustments to Net
	I	Amount	Net	Position		Position
Adjustments to Revenue, Unearned Revenue, Beg.	Ne	t Position:				
Beg. of Year Unearned Tax Revenue/Internal Ser.	\$	89,958			\$	89,958

From Modified Accrual:						
Adjust Interest Expense on Long-term Debt	\$	595		595		595
Amortization of Discount (Premium) on Bonds	\$	44,771		44,771		44,771
Basis on Disposition of Capital Assets	\$	¥		=		-
Right-To-Use Leases Prior Period Adjustment	\$	(3,595)				(3,595)
Totals			\$	111,725	\$	198,088

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports are in the J Exhibits as reported in the required TEA Exhibits.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- 1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.

- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. These amendments are detailed by function in Exhibits G-1, J-2 and J-3.
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as adopted and amended by the Board of Trustees. All budget appropriations lapse at year-end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	202	gust 31, 22 Fund alance
Appropriated Budget Funds - Food Service Special Revenue Fund	\$	44,530
Non-appropriated Budget Funds		31,145
All Special Revenue Funds	\$	75,675

B. BUDGETARY STEWARDSHIP, COMPLIANCE and ACCOUNTABILITY

The District has disclosed budgetary stewardship, compliance, and accountability in Section C of the Notes to Required Supplementary Information.

C. DEFICIT FUND EQUITY

The District did not incur a deficit fund balance in any fund during the current school year.

IV. <u>DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS</u>

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

The carrying amount of the District's cash and temporary investments at the end of the fiscal year follows:

CASH AND CASH EQUIVALENTS BY ACCOUNT TYPE	8/31/2022
Cash Deposits in Bank	\$ 3,098,643
Certificates of Deposit Maturity to 3 months	: <u>-</u> :
Cash on Hand	-
Restricted Cash Deposits in Bank	 57,858
Total Cash and Cash Equivalents by Account Type	\$ 3,156,501
CASH AND CASH EQUIVALENTS BY FUND	8/31/2022
Cash and Cash Equivalents:	
General Fund	\$ 2,790,104
Major Governmental Funds	80,254
Non-Major Governmental Funds	111,550
Enterprise Funds	-
Internal Service Funds	51,699
Custodial Funds	65,036
Trust Funds	57,858
Other Funds	===
Total Cash and Cash Equivalents by Fund	\$ 3,156,501

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits:</u> State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. The District's cash deposits subject to custodial credit risk at the date of the highest cash balance and at year end were:

	HIG	HEST CASH			
CUSTODIAL CREDIT RISK	В	BALANCE	8/31/2022		
Name of Depository Bank: VISTA BANK					
Total amount of FDIC Insurance (FDIC)	\$	750,000	\$	580,254	
Amount of Bond or Securities Pledged		7,705,000		7,705,000	
Total FDIC, Bond or Securities Pledged	\$	8,455,000	\$	8,285,254	
Cash Deposits and Cash Investments in Bank	\$	6,917,424	\$	4,320,651	
Excess or (Shortage) FDIC and Bond or Pledged Securities Pledged	\$	1,537,576	\$	3,964,603	
The District's cash deposits were entirely covered by FDIC Insurance or by bond or pledged collateral by the Depository Bank		YES		YES	

<u>Foreign Currency Risk:</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by limiting all deposits denominated in a foreign currency.

Investments

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only. with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for the District are specified below:

<u>Credit Risk:</u> To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations, the District limits investments in commercial paper, corporate bonds, and mutual bond funds to the top 2 or 3 ratings issued by nationally recognized statistical rating organizations (NRSROs). As of the current fiscal year, the district's investments were rated by Standard & Poor's, Fitch Ratings, etc.

<u>Custodial Credit Risk for Investments</u>: To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk: To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer to 20% when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government.

<u>Interest Rate Risk:</u> To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires at least half of the investment portfolio to have maturities of less than one year on a weighted average maturity basis.

<u>Foreign Currency Risk for Investments:</u> The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding all investments denominated in a foreign currency.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Lone Star and TexStar investment pools are external investment pools measured at net asset value. Lone Star and TexStar's strategy are to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pools. Lone Star and TexStar have a redemption notice period of one day and may redeem daily. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pool's liquidity. LoneStar and TexStar are subject to regulatory oversight by the State Treasurer, although the pools are not registered with the Securities and Exchange Commission.

U.S. Government Agency Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Inter-fund balances at year-end consisted of the following amounts:

		ue From	Due To		
FUND	Otl	ner Funds	Other Funds		
General Fund					
Major Governmental Funds	\$	70,039	\$	7,258	
Non-major Governmental Funds		15,912		:=

Total All Other Funds	\$	34	\$	_=.	
Total Interfund Transfers	\$	15,630	\$	15,630	

Inter-fund transfers for the current year end consisted of the following individual amounts:

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to cover operating deficits in funds such as the Food Service Funds. The District did make operating transfers to the Food Service Special Revenue Fund during the current year to cover operating deficits of \$15,630.

During the current year ended August 31, the District did not make a one-time transfer of funds from the general fund to the debt service fund to subsidize, in part, the District's obligation of interest and sinking fund requirements.

E. DISAGGREGATION OF RECEIVABLES AND PAYABLES

Receivables at year-end were as follows:

The District has no capital assets that are not being depreciated as of the current fiscal year end except for land and construction in progress.

LONG-TERM LEASE ASSETS

Intangible Right-to-Use Assets

In Fiscal Year 2022, the District implemented the guidance in **GASBS No. 87**, *Leases*, and recognized the value of copiers and postage machines leased under long-term contracts.

As of August 31, 2022, the District had several lease agreements in place for copiers and postage machines. In the current year, the District entered into new lease agreements to replace the copiers and postage meters leased under previous leases with new leased equipment. The terms of the new lease agreements require amortization and payments over 5 and 4 years.

As of August 31, 2022, the District had not leased portable buildings for District use. There was not a building lease renewed during the current year.

G. SHORT-TERM DEBT PAYABLE

The District accounts for short-term debts for maintenance purposes through the General Fund. Short-term debts include notes made in accordance with the provisions of the Texas Education Code Section 45.108. The proceeds from loans are shown in the governmental fund financial statements as Other Resources and principal payments are shown as Other Uses. The District had no short-term debt obligations at any time during the current fiscal year.

H. BONDS, FINANCED PURCHASE OBLIGATIONS AND LONG-TERM NOTES PAYABLE

LONG-TERM LEASE OBLIGATIONS

Intangible Right-to-Use Lease Liabilities

In FY 2022, the District implemented the guidance of GASB Statement No. 87, Leases, for accounting and reporting leases that had previously been reported as operating leases.

Copier Leases

The District leases a variety of copier/printers from Xerox and ALLCopy for a term of 60 months. The leases on the 2018 old copiers will expire in fiscal year 2023. The District therefore entered into a new leases which requires a minimum monthly lease payment of \$4,645, plus additional charges for excess usage and excluding applicable taxes. For purposes of discounting future payments on the 2022 leases, the District used the interest rate (1.37% to 3.69%) on its financing agreements to determine an appropriate discount rate. The 2018 leases were discounted using an imputed rates of 4.4% to 11.40% to determine the discounted lease liability that matched the buyout payment. The leased equipment and accumulated amortization of the right-to-use assets are outlined in Note F.

Postage Meter Leases

The District leases postage meters from Pitney Bowes for a term of 60 months. The leases on the 2017 postage meters expired in fiscal year 2022. The District therefore entered into a new leases which requires a minimum monthly lease payments of \$53, plus additional charges for excess usage and excluding applicable taxes. For purposes of discounting future payments on the 2022 lease, the District used the interest rate (14.83%) on its financing agreements to determine an appropriate discount rate. The 2017 lease was discounted using an imputed rate of 14.83% to determine the discounted lease liability that matched the buyout payment. The leased equipment and accumulated amortization of the right-to-use assets are outlined in Note F.

Building Leases

The District does not currently lease portable buildings. The District did not lease any buildings as of August 31, 2022.

Total Minimum Future Rentals		\$ -
Rental Expenditures in Fiscal Year 2022		\$ 340

J. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

Upon retirement or death of certain employees, the District pays any accrued sick leave and vacation leave in "lump sum" cash payment to such employee or his/her estate. Individuals employed after October 1, 1985, are not eligible to receive the lump sum payments. The District had no changes in the accumulated sick leave and vacation leave liability.

K. HEALTH CARE COVERAGE

The District provided health insurance coverage for employees under the provisions of the Teacher Retirement System of Texas (TRS) active care health insurance plan during the current year. The District paid premiums per month per employee to the plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. The plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

L. UNEARNED REVENUE AND DEFERRED INFLOWS OF RESOURCES – UNAVAILABLE REVENUE - GOVERNMENTAL FUND FINANCIAL STATEMENTS

Unearned Revenue and Deferred Inflows of Resources – Unavailable Revenue at year-end consisted of the following:

	_	eneral Fund	R	Special evenue Funds	S	Debt Service Fund	Total
Unearned Revenue:							
Unearned Grant Revenue	\$	-	\$	22,880	\$	-	\$ 22,880
Other Unearned Revenue		÷		-		2 0	Rain
Total Unearned Revenue	\$	•	\$	22,880	\$	#3	\$ 22,880
Deferred Inflows of Resources:							
Unavailable Revenue-Property Taxes	\$	58,163	\$:=:	\$	16,287	\$ 74,450
Other Unavailable Revenue		: - :				.=:	:: - :
Total Deferred Inflows	\$	58,163	\$	(₩)	\$	16,287	\$ 74,450

M. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments at year end are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as "Due from State Agencies" except for some federal programs which are received directly from the federal government for grants such as the REAP Program.

FUND	FO	UE FROM STATE - UNDATION ITLEMENTS	ST	DUE FROM ATE-STATE & FEDERAL GRANTS	UE FROM OTHER VERNMENTS	,	ГОТАL
General	\$	227,515	\$	i#	\$ 5,713	\$	233,228
Special Revenue		<u>,≡</u>		109,177	-		109,177
Debt Service					1,959		1,959
Totals	\$	227,515	\$	109,177	\$ 7,672	\$	344,364

N. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Special Revenue Funds	Debt Service Fund	Capital Projects Fund	Total
Property Taxes	\$ 2,779,440	\$ =	\$ 1,817,996	\$ -	\$ 4,597,436
Penalties, Interest and Other Tax-

Windfarm Payments	-	-	-	-	H.
Tuition and Fees	143,021	(=)	3.00	25	143,021
Insurance Recovery, SSA, & Other	657,454	13,701	*		671,155
Totals	\$ 3,671,088	\$ 59,919	\$ 1,828,072	\$ -	\$ 5,559,079

O. LITIGATION

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is aware of pending exposure to claims related to these areas; however, legal counsel and the District do not expect any financial exposure to assets of the District.

P. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS & CONTINGENCIES

The District at year end had not incurred or made any additional commitments and/or contingencies in connection with construction or other areas of significance.

Q. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District is a member of the Tri-County Education Shared Services Arrangement ("SSA"). The SSA provides services for special education to member districts. Haskell Consolidated Independent School District is the fiscal agent for the SSA. In addition to the District, other member districts participate in the special education cooperative. The fiscal agent provides SSA services. The member districts provide the funds to the fiscal agent. The Shared Services Arrangements - Special Education has been accounted for using Model 3 in the SSA section of the TEA Resource Guide. The District has accounted for the payments to the fiscal agent of the SSA in the General Fund as intergovernmental expenditures. The District's expenditures to the SSA for the current year were as follows:

Shared Services	Type of		Funding	Fiscal Agent Special Revenue	District Special Revenue		Program penditures
Arrangement	Services	Fiscal Agent	Source	Fund	Fund	Cu	rrent Year
Tri-County	Special		Special				
Education SSA	Education	Stamford ISD	Education	437	N.A.	\$	229,420
		TOTAL FUNC	CTION 93 E	XPENDIT	URES	\$	229,420

The District also participates in shared service arrangements with other school districts for various educational activities. In addition to the District, other member districts participate in the educational cooperatives and the fiscal agent provides SSA services. The funding for each activity is received by the fiscal agent from the grantor agency. The fiscal agent then provides the funds to the member districts. According to guidance provided in TEA's Resource Guide, the Fiscal Agent has accounted for the fiscal agent's activities of the SSA in a Special Revenue Fund. The Shared Services Arrangements has been accounted for using Model 1 in the SSA section of the TEA Resource Guide. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the district have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. Presented below are the shared service arrangements in which the District participates, and the extent of funding received and expended under each program.

Shared Services	Type of		Funding	Fiscal Agent Special Revenue	District Special Revenue		ogram enditures
Arrangement	Services	Fiscal Agent	Source	Fund	Fund	Curr	ent Year
Tri-County	Special		IDEA, Part B				
Education SSA	Education	Stamford ISD	Formula	313	224	\$	47,239
Tri-County	Special		IDEA, Part B				
Education SSA	Education	Stamford ISD	PreSchool	314	225	\$	23,060

R. SUBSEQUENT EVENTS

In preparing the basic financial statements, District administration has evaluated events and transactions for potential recognition or disclosure through **October 18, 2022**, the date this Annual Financial Report was issued. No material subsequent events had occurred in the period of August 31, 2022, through that date.

S. RELATED ORGANIZATIONS

The District at present does maintain an Educational Foundation (the "Foundation"). This entity was established as a not-for-profit entity to provide assistance and support for teachers and students to develop special programs and projects and other school district support activities. This entity is a "related organization" of the District as defined by *Governmental Accounting Standards Board*. However, the members of the board of the Foundation are appointed by an outside taxpayer group and the support for the District is immaterial and therefore is not included in the District financial statements.

T. MAINTENANCE OF EFFORT

The District is in compliance with the maintenance of effort requirements in connection with health insurance.

U. RELATED PARTY TRANSACTIONS

The District incurs related party transactions with businesses owned or employers for various members of the board of trustees. The District did not incur any material reportable related party transactions or balances as of and during the current year end.

V. FUND BALANCE / NET POSITION ADJUSTMENTS

During the current fiscal year, the District did not make a prior period fund balance adjustment, but did make a prior period net position adjustment of \$3,595 to record new GASB 87 long-term right to use assets and long-term lease liabilities in the governmental activities.

Governmental Fund Balance	 e ral	Ser	ebt vice ind	Proj	oital ects ind	Total
Increase (Decrease) Beginning of Year Fund Balance						
From - N/A	\$ 	\$	3 # 3	\$		\$ Œ.
Totals	\$ =	\$		\$	9	\$ 3 ,
Government Wide Net Position						
Increase (Decrease) Beg of Year Net Position:						-
Prior Period Adjustments- GASB 87 Long-Term Leases						\$ (3,595)
Totals						\$ (3,595)

W. WORKERS COMPENSATION / PROPERTY & CASUALTY / UNEMPLOYMENT

Workers' Compensation Program

During the current year ended, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-Local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Inter-Local Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.0 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2022, the Fund carries a discounted reserve for future development on reported claims and claims that have been incurred but not yet reported. For the current year ended,

the Fund anticipates no additional liability to members beyond their contractual obligation for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin, Texas.

Workers' Compensation Program – Prior Year Coverage

Beginning September 1, 1992, the District established a self-insurance plan for workers' compensation benefits as authorized by Section 504.011 of the Labor Code. The District participates in this plan for prior year's workers' compensation coverage (West Texas Educational Insurance Association self-funded workers' compensation program) along with other participating entities. The District contributes annual amounts determined by Claims Administrative Services, Inc. As claims arise, they are submitted to and paid by Claims Administrative Services, Inc. on behalf of the District under terms of a contractual agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Coverage was in effect for specific occurrences exceeding \$350,000 and aggregate retention at \$5,000,000.

The costs associated with this self-insurance plan are reported as Inter-fund transactions to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the General Fund. The liabilities of the plan include incurred but not reported claims. These liabilities reported in the funds at August 31, 2022, are based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported.

Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Workers' compensation liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time were computed by an actuary and are reported at their present value using an expected future investment yield assumption.

Estimates of claims payable and of claims incurred, but not reported at August 31 are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due. Changes in the balances of claims liabilities during the past year are as follows:

	Year Ended August 31, 2021		Year Ended August 31, 2022	
Unpaid claims, beginning of year	\$ 26,679	\$	25,701	
Incurred claims (including IBNR'S)	(689)		17,455	
Claim Payments	(289)		(19,211)	
Unpaid claims, end of year	\$ 25,701	\$	23,945	

Unemployment Compensation Program

During the current year, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's unemployment compensation program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund meets it quarterly obligations to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool members.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

X. DEFINED BENEFIT PENSION PLAN

a. Plan Description

The district participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

b. Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs..texas.gov/Pages/about publications.aspx.; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

c. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (a) above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

d. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025. Contribution Rates can be found in the TRS 2021 ACFR, Note 11, on pages 85 and 86.

	Contribu	Contribution Rates		
	<u>2021</u>		2022	
Member	7.7%		8.0%	
Non-Employer Contributing Entity (State)	7.5%		7.8%	
Employers	7.5%		7.8%	
Current fiscal year employer contributions		\$	165,265	
Current fiscal year member contributions		\$	397,893	
2021 measurement year NECE on-behalf contributions		\$	286,740	
Payments made by the State On-Behalf of the District for	Medicare, Part D:			
Fiscal year 2020 Medicare, Part D On-Behalf		\$	22,023	
Fiscal year 2021 Medicare, Part D On-Behalf		\$	22,556	
Fiscal year 2022 Medicare, Part D On-Behalf		\$	20,797	

Contributors to the plan include members, employers and the State of Texas as the only nonemployer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA). As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.6 percent of the member's salary beginning in fiscal year 2021, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

e. Actuarial Assumptions

The total pension liability in the August 31, 2020, actuarial valuation was determined using the following actuarial assumptions: Actuarial Assumptions can be found in the 2021 TRS ACFR, Note 11, page 87.

Valuation Date	August 31, 2020 rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term expected investment rate of return	7.25%
Municipal Bond Rate of of August 2019	 1.95%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"
Last year ending August 31 in Projection Period (100 years)	2120
Inflation	2.30%
Salary Increases including inflation	3.05 % to 9.05% including inflation
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2020.

f. Discount Rate

A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2021 (see page 53 of the TRS ACFR) are summarized below:

Teacher Retirement System of Texas Asset Allocation and Long-Term Expected Real Rate of Return As of August 31, 2021

Table 3.A.1: Asset Allocations			
Asset Class*	Target Allocation %**	Long-Term Expected Geometric Real Rate of Return***	Expected Contribution t Long-Term Portfolio Returns
Global Equity			
USA	18.0 %	3.6 %	0.94
Non-US Developed	13.0	4.4	0.83
Emerging Markets	9.0	4.6	0.74
Private Equity	14.0	6.3	1.36
Stable Value			
Government Bonds	16.0 %	(0.2)%	0.01

Stable Value Hedge Funds	5.0	2.2	0.12
Real Return			
Real Estate	15.0 %	4.5 %	1.00
Energy, Natural Resources & Infrastructure	6,0	4.7	0.35
Commodities	0.0	1.7	0.00
Risk Parity	8.0 %	2.8 %	0.28
Asset Allocation Leverage			
Cash	2.0 %	(0.7)%	(0.01)
Asset Allocation Leverage	(6.0)	(0.5)	0.03
Inflation Expectation			2.20
Volatility Drag****			(0.95)
Expected Return	100.0 %		6,90

^{**}Target allocations are based on the FY2021 policy model.

^{***}Capital Market Assumptions come from Aon Hewitt (as of 8/31/2021).

^{****}The volatility drag results from the conversion between arithmetic and geometric mean returns.

g. Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.25 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate. The discount rate can be found in the 2021 TRS ACFR, Note 11, page 87 and the Table of Sensitivities [Table 11.I.1] can be found on page 88.

	1	% Decrease in			19	6 Increase in
	I	Discount Rate	1	Discount Rate	Di	scount Rate
		(6.25%)		(7.25%)		(8.25%)
District's proportionate share of the net pension liability:	\$	2,624,678	\$	1,201,138	\$	46,216

h. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At the current year ended August 31, the District reported a liability of \$1,201,138 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the district. The amount recognized by the district as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the district were as follows:

District's proportionate share of the collective net pension liability	\$ 1,201,138
State's proportionate share that is associated with the District	1,711,139
Total	\$ 2,912,277

The net pension liability was measured as of August 31, 2020, and rolled forward to August 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020, thru August 31, 2021.

At August 31, 2021, the employer's proportion of the collective net pension liability was 0.0047165493% which was an increase (decrease) of 0.0003775814% from its proportion measured as of August 31, 2020.

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the measurement year ended August 31, the district recognized the following:

Year Ended August 31, 2021 pension expense	\$ 142,527
Revenue for support provided by the State	\$ 6,841

As of the current year ended August 31, the district reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources: The current year amounts can be found on the GASB 68 Plan Level Schedule of Deferred Inflows and Outflows file, rows 11, 20, 29 and 38 in column I and J.

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual actuarial experiences	\$	2,010	\$	84,561
Changes in actuarial assumptions		424,579		185,080
Differences between projected and actual investment earnings		-		1,007,139
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions		248,432		151,870
Total as of August 31, 2020 measurement date	\$	675,021	\$	1,428,650
Contributions paid to TRS subsequent to the measurement date		165,265		
Total as of fiscal year-end	\$	840,286	\$	1,428,650

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ended August 31,	Pension	Expense Amount
2023	\$	(120,681)
2024		(124,525)
2025		(223,723)
2026		(303,676)
2027		12,663
Thereafter		6,313

Y. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

a. Plan Description

The district participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

b. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about publications.aspx; by writing to the TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)-542-6592.

c. Benefits Provided

TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Month	ly Premium Rates	
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse	Ī	
and Children	468	408
Retiree and Family	1,020	999

d. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribu	Contribution Rates		
	<u>2021</u>		<u>2022</u>	
Member	0.65%		0.65%	
Non-Employer Contributing Entity (State)	1.25%		1.25%	
Employers	0.75%		0.75%	
Federal/Private Funding Remitted by Employers	1.25%		1.25%	
π.				
Current fiscal year employer contributions		\$	51,452	
Current fiscal year member contributions		\$	32,328	
2021 measurement year NECE on-behalf contributions		\$	82,123	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$5,520,343 in fiscal year 2021 for consumer protections against medical and health care billing by certain out-of-network providers.

e. Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2021. The actuarial valuation was determined using the following actuarial assumptions: Actuarial Assumptions can be found in the 2021 TRS ACFR, Note 9, page 76.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for member of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2020, TRS pension actuarial valuation that was rolled forward to August 31, 2021:

Rates of Mortality Rates of Disability
Rates of Retirement General Inflation
Rates of Termination Wage Inflation

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the mortality projection scale MP-2018.

Actuarial Methods and Assumptions:

Rates of Mortality General Inflation
Rates of Retirement Wage Inflation

Rates of Termination Expected Payroll Growth

Rates of Disability Incidence

Additional Actuarial Methods and Assumptions:

Valuation Date

August 31, 2020 rolled forward to August 31, 2021

Actuarial Cost Method Individual Entry Age Normal

Inflation 2.30%

Single Discount Rate 1.95% as of August 31, 2021

Aging Factors Based on plan specific experience

Thiry-party administrative expenses related to the

Expenses delivery of health care benefits are included in the

age-adjusted claims costs

Salary Increases 3.05% to 9.05%, including inflation

Ad-hoc Post Employment Benefit Changes None

f. Discount Rate

A single discount rate of 1.95 percent was used to measure the total OPEB Liability. There was a decrease of .38 percent in the discount rate since the previous year. The Discount Rate can be found in the 2021 TRS ACFR on page 77. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at a statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2021, using the fixed-income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

g. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used 1.95%) in measuring the Net OPEB Liability.

	1% Decrease in				1%	6 Increase in
	Discount Rate		Discount Rate		Di	scount Rate
	(0.95%)			(1.95%)		(2.95%)
Proportionate share of the net OPEB liability	\$	3,650,775	\$	3,026,598	\$	2,535,351

h. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At the current year-end August 31, the District reported a liability of \$3,026,598 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the district. The amount recognized by the district as its proportionate share of the net OPEB liability, the related State support, and the total portion of the Net OPEB Liability that was associated with the district were as follows:

District's proportionate share of the collective net OPEB liability	\$ 3,026,598
State's proportionate share that is associated with the District	4,054,967
Total	\$ 7,081,565

The Net OPEB Liability was measured as of August 31, 2020, and rolled forward to August 31, 2021, and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2020, thru August 31, 2021.

At the current year-end August 31, the employer's proportion of the collective Net OPEB Liability was 0.0078461178%, compared to 0.0084276463% the previous year.

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

			Curr	ent Healthcare		
	1%	1% Decrease		t Trend Rate	1% Increase	
Proportionate share of net OPEB liability	\$	2,451,444	\$	3,026,598	\$	3,798,312

Changes Since the Prior Actuarial Valuation - The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period: These can be found in the 2021 TRS ACFR on page 77.

• The discount rate changed from 2.33 percent as of August 31, 2020, to 1.95 percent as of August 31, 2021. This change increased the Total OPEB Liability.

Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by the district in the reporting period was (\$256,850).

At the current year-end August 31, the district reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources: The current year amounts can be found on the BASB 75 Plan Level Schedule of Deferred Inflows and Outflows file, rows 8, 15, 22 and 29 in column H and I.

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Differences between expected and actual actuarial experiences	\$ 130,309	\$ 1,465,085
Changes in actuarial assumptions	335,231	640,070
Differences between projected and actual investment earnings	3,285	, .
Changes in proportion and differences between the employer's contributions and the		
proportionate share of contributions	238,373	380,779
Contributions paid to TRS subsequent to the measurement date	51,452	
Total as of fiscal year-end	\$ 758,650	\$ 2,485,934

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	OP	OPEB Expense		
Fiscal year ended August 31,		Amount		
2023	\$	(325,022)		
2024		(325,099)		
2025		(325,079)		
2026		(245,410)		
2027		(137,552)		
Thereafter		(420,574)		

For the current year ended August 31, the District recognized OPEB expense of (\$256,850) and revenue of \$(149,659) for support provided by the State.

Z. TAX ABATEMENT:

Haskell Consolidated Independent School District has entered into an agreement with Horse Creek Wind LLC on September 29, 2015. (https://comptroller.texas.gov/economy/local/ch313/agreement_docs.php). The agreement was for Horse Creek Wind, LLC to invest capital of \$182,959,496 on a long-term basis for a valuation limitation of \$20,000,000. For fiscal year 2022, which is year 6 for the agreement, with the M&O tax rate \$0.9634 per \$100, with property valued at \$115,401,070 without considering the limit and \$20,000,000 with the limit. When calculated, the district forgoes collecting \$919,094 in tax revenue – however, that will be offset by the increase in state funding through the FSP funding formula and a possible Revenue Protection Payment. In addition to the tax abatement, the Horse Creek Wind, LLC has committed to pay supplemental payments to the district in the amount of \$100 per ADA based on the Haskell CISD's 2014-2015 Final ADA.

Haskell Consolidated Independent School District has entered into an agreement with Willow Springs Windfarm, LLC on October 18, 2016.(https://comptroller.texas.gov/economy/local/ch313/agreement-docs.php). The agreement was for Willow Springs Windfarm, LLC to invest capital of \$307,036,742 on a long-term basis for a valuation limitation of \$20,000,000. For fiscal year 2022, which is year 6 for the agreement, with the M&O tax rate \$0.9634 per \$100, with property valued at \$217,822,210 without considering the limit and \$20,000,000 with the limit. When calculated, the district forgoes collecting \$2,098,499 in tax revenue – however, that will be offset by the increase in state funding through the FSP funding formula and a possible Revenue Protection Payment. In addition to the tax abatement, the Willow Springs Windfarm, LLC has committed to pay supplemental payments to the district in the amount of \$100 per ADA based on the Haskell CISD's 2014-2015 Final ADA.

Haskell Consolidated Independent School District has entered into agreements with IP Quantum II, LLC, Brazos Fork Solar, LLC, Inertia Wind Project, LLC, Grasshopper Solare, LLC, Briggs Solare, LLC, Stetson Renewables Holdings, and Millers Branch Solar, LLC. that will not be subject to value limitation until the District's fiscal years 2024 through 2029.

HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2022

A. Notes to Schedules for the TRS Pension

Changes of benefit terms

There were no changes of benefit terms since the prior measurement date.

Changes of assumptions

There were no changes to the actuarial assumptions since the prior measurement date.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefit

There were no changes in benefit terms since the prior measurement date.

Changes in Assumptions

The single discount rate changed from 2.33 percent as of August 31, 2020, to 1.95 percent as of August 31, 2021. This change increased the total OPEB liability.

C. Stewardship, Compliance and Accountability

Budget

The Board of Trustees (local school board) is legally required to adopt an annual budget (on a 12-month basis) for the general fund, the food service fund, and if applicable, the debt service fund. The budgets must be prepared by August 20 and adopted by the local school board before expenditures are made and, if applicable, before the tax rate for the year is set. The required supplementary information for the general fund budget is located in Exhibit G-1 "Budgetary Comparison Schedule – General Fund. The required Texas Education Agency (TEA) schedule for the food service fund is located in Exhibit J-2 "Budgetary Comparison Schedule – Child Nutrition Fund.

Once a budget is approved, it can be amended at the fund and function level only by a majority of the members of the Board of Trustees.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under State of Texas law, appropriations lapse at year end August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget.

It is a violation of Texas State Law for expenditures to exceed the budget in any function of the general fund, the food service fund, or the debt service fund.

Expenditures Exceeding Appropriation

The current year expenditures did not exceed appropriations in the general fund as detailed in Exhibit G-1 "Budgetary Comparison Schedule -General Fund". The current year expenditures did not exceed appropriations in any functions in the food service fund as detailed in Exhibit J-2 "Budgetary Comparison Schedule -Child Nutrition Fund". The current year expenditures also did not exceed appropriations in any functions in the debt service fund as detailed in Exhibit J-3 "Budgetary Comparison Schedule -Debt Service Fund".

Independent Auditor's Report on Internal Control Over Financial Reporting and On Compliance and Other Matters Based on An Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees Haskell Consolidated Independent School District Haskell, Texas 79521

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Haskell Consolidated Independent School District, as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise Haskell Consolidated Independent School District's basic financial statements, and have issued our report thereon dated October 18, 2022.

Report On Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Haskell Consolidated Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Haskell Consolidated Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Haskell Consolidated Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report On Compliance and Other Matters

As part of obtaining reasonable assurance about whether Haskell Consolidated Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

James E. Rodgers and Company, P.C.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Haskell Consolidated Independent School District Haskell, Texas 79521

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Haskell Consolidated Independent School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Haskell Consolidated Independent School District's major federal programs for the year ended August 31, 2022. Haskell Consolidated Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Haskell Consolidated Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Haskell Consolidated Independent School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Haskell Consolidated Independent School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Haskell Consolidated Independent School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Haskell Consolidated Independent School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Haskell Consolidated Independent School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Haskell Consolidated Independent School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Haskell Consolidated Independent School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Haskell Consolidated Independent School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures did not disclose instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs, if applicable, as item 2022-001. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Haskell Consolidated Independent School District's response to the noncompliance findings identified in our audit described in the accompanying schedule of findings and questioned costs (not applicable if no noncompliance findings were identified). Haskell Consolidated Independent School District's response (if applicable) was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

James E. Rodgers and Company, P.C.

HASKELL CONSOLIDATED INDEPENDENT SCHOOL DISTRICT NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS YEAR ENDED AUGUST 31, 2022

- 1. For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- 2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types and Expendable Trust Funds are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund that is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.
- 3. The modified accrual basis of accounting is used for the Governmental Fund types, the Expendable Trust Funds, and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.
- **4.** Federal grant funds are recorded as earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.
- 5. The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, Compliance Statement.

6. Indirect Costs

The District did not elect to use a di minimis cost rate of 10% as described at 2CFR §200.414(f) – Indirect (F&A) Costs.

7. Reconciliation of Federal Awards

The following is a reconciliation of expenditures of federal awards in the SEFA and federal program Revenues in the Statement of Revenues, Expenditures and Changes in Fund Balance of the Governmental funds.

Federal program revenues per Exhibit C-3	\$ <u>1,796,455</u>
School Health & Related Services (SHARS) Reimbursement not reported to the SEFA	\$_230,112_
Total federal expenditures on Exhibit K-1	\$1,566,343

8. The District did not pass through any payments to subrecipients during the current year.
