

HASKELL CISD

Nominations Open for Gifted/Talented Program November 8-19

The HASKELL CISD offers a special program for students with above average potential in academic and creative-productive thinking skills areas in grades K-12. This gifted education program is designed to challenge students to accelerate above and beyond the regular school curriculum. The G/T Program is funded for 3%-5% of each grade-level so that the program is serving the truly gifted students. For example, in a grade level of fifth grade students with an enrollment of forty students, only two students should be in the G/T Program.

Program Overview

The Gifted and Talented Program for HASKELL CISD is for academically and intellectually gifted students in grades K-12. Enrichment for GT students is provided in the regular classroom through differentiation of curriculum. The gifted program at the secondary level takes the form of classroom differentiation, dual enrollment, and AP classes. High School students also contract for their services in their area or areas of strength. Junior high and elementary GT takes the form of classroom differentiation in the four core areas.

The Texas State Definition of Giftedness

A gifted and talented student is a child or youth who performs at or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment and who:

1. exhibits high performance capability in an intellectual, creative, or artistic area;
2. possess an unusual capacity for leadership; or
3. excels in a specific academic field.

Those students nominated will go through a screening procedure, which requires special testing. Please note that if your child has previously been identified as being in the G/T Program, there is no need to nominate again. For further information on students in grades K-12, please contact Michelle Thane at 940-864-2602 ext. 105.

BRIGHT CHILD

Knows the answers
Is interested
Is attentive
Has good ideas
Works hard
Answers the questions
Top group
Listens with interest
Learns with ease
6-8 repetitions for mastery
Understands ideas
Enjoys peers
Grasps the meaning
Completes assignment
